

ARISA-TACK

Hot Melt Adhesives for Automobile Industry

Arisa Baspar Pars

Product Description

Hot melt adhesives offer versatile solutions for use in the automobile industry and are utilised when manufacturing car seats or fixing cables in the roof liner area, for example.

Features

- high heat resistance;
- high cohesive strength;
- adhesion to complex surfaces;
- possibility to use at low temperatures;
- fills gaps and seals;
- water resistance and waterproofing;
- compliance with international standards.

Product	Viscosity (cp) at 180°C	Softening point (°C)	Open time	Colour	Application	Operation Temp (°C)
ARISATAACK 2401	4000-5000	100-110	Medium	White pellet	Lightening	160-190
ARISATAACK 2402	11000-12000	120-130	Medium	White pellet	Lightening	160-190
ARISATAACK 2403	4000-5000	120-130	Long	White pellet	Interior component	160-190
ARISATAACK 2404	5000-6000	100-110	Medium	White pellet	Interior component	160-190
ARISATAACK 2405	1000-2000	100-110	Short	Yellowish pellet	Filter	160-190
ARISATAACK 2406	1000-2000	110-120	Short	White pellet	Filter	160-190

ARISATAACK 2407	6000-7000	110-120	Short	White pellet	Lead-acid battery	160-190
ARISATAACK 2408	8000-9000	120-130	Short	Yellowish pellet	Lead-acid battery	160-190
